

MULTIPLIER™

WARRANTY FOR BAR CODE SCANNER & MOBILE PRINTER BATTERIES

January 1, 2015

Warranty Statement For BCS / MP Batteries

Multiplier Industries, LLC (Multiplier) warrants its bar code scanner and mobile printer batteries to be free from defects in workmanship and materials for 12 months **from the date of purchase from Multiplier**. The 12-month period applies to batteries with NiCd, NiMH, Li-Ion, or LiPo cells. During this 12-month period, Multiplier also warrants that its batteries will maintain a percentage of their rated capacity as follows: Japanese or Korean cells at 80% and Chinese cells at 70%.

Should any problem covered by this warranty develop, return the battery with dated proof of purchase to Multiplier for credit or replacement. Multiplier will issue a credit or ship a replacement (as requested by the purchaser) for any defective product returned during the warranty period. For batteries, this warranty is void if the date code label has been removed or if the battery has been improperly charged. This warranty is also void if the battery has been altered, misused, damaged, or neglected. This is the only warranty made by Multiplier. In no event will Multiplier, its affiliates, subsidiaries, related entities, or their respective directors, officers, or employees be liable for any damages beyond replacement as described above, including without limitation, indirect, incidental, or consequential damages.

Shipping and other costs related to return of defective products to Multiplier are the responsibility of the purchaser. An RA number is required for any products returned to Multiplier. Multiplier will pay for return shipping of replacement products to the original purchaser.
